

WE AS LAZER PROMAX;

We have an indispensable value that has been shaped by the decisions we have developed with our experiences, learned and implemented, constantly renewed, increasing the professionalism of our team day by day by laying new stones, constantly working "for the better", always aiming for the better in the light of research and science. We are strong and exist because we are with you. We have our signature for the better on all platforms, in all technological developments. Why we are? Because we are at the heart of development, future and presenting what is useful.

Paydas Kimya, serving in the chemical cleaning products sector, has been admired and heard worldwide in all the products it produces under the brand of Lazer Promax. While contributing to the development of the cleaning sector with its special formulas, it continues the technological development of its products without sacrificing quality. With its investments in R&D and production infrastructure, it meets expectations with higher quality and higher production capacities. It continues its research for a sustainable future and will continue to shape technology with new invest-

OUR VISION

We have adopted the vision of adding value at the point it deserves by presenting our wide product range to the whole world. With this vision, it is not a local or country-wide brand, but to deliver products in a short time that will strengthen the hand of service companies that are in the cleaning sector all over the world and want to offer quality.

OUR MISSION

We ensure the safe and successful operation of products that will meet the needs of sectors that need special cleaning products such as car cleaning, especially companies serving in the cleaning sector. However, we have expanded and will continue to expand our service area with the production of industrial chemicals that the industry may need.

QUALITY STANDARDS

Quality standards are as important as vision and mission. It is true that the only condition that will ensure the formation of the mission and the realization of the visions is absolutely quality. Our products have ISO-9001 quality management certificate and are approved by the Turkish Ministry of Health. Lazer Promax products do not compromise on quality at every stage of production.

USE SAFELY IN UPHOLSTERY CLEANER MACHINE WITH FOAM CUTTER FORMULA!

Tanks of upholstery cleaner machines vary according to brands. It is recommended to add 200 ml of our upholstery and roller blind shampoo into a 10 liter tank of warm water. You can adjust this ratio according to the capacity of your tank. Apart from the upholstery cleaner machine process, you can additionally put our upholstery and roller blind shampoo into 1 liter agricultural hand pumps (approximately 100 ml) and spray the soaked seat and wash your seats. Upholstery and roller blind shampoo is the most effective product for washing sofas, roller blinds, beds, quilts, blankets, laundry and cleaning stains, thanks to its 7 pH balance and powerful formula. For heavy stains, apply hot water supplement with shampoo for upholstery and roller blinds. Upholstery and roller blind shampoo is a professional product used for general cleaning purposes, used in professional carpet washing companies, car cleanings, home cleaning services, cleaning of kitchens and bathrooms.

INSTRUCTIONS FOR USE

APPLICATION 1- Dilute our roller blind and upholstery shampoo at 1/50 ratios for manual cleaning. Lay your roller blinds on the floor and wet them, apply the 1/50 roller blind shampoo you have prepared and clean both sides with a soft hand brush. After washing, rinse with plenty of water and hang.

NOTE: (Roller blinds should not be dried in closed drying rooms, but should be dried outdoors.)

APPLICATION 2- Dilute our roller blind and upholstery shampoo at 1/100 ratios for manual cleaning. Lay your roller blinds on the floor and wet them, apply the 1/100 roller blind shampoo you have prepared and clean both sides with a soft hand brush. After washing, rinse with plenty of water and hang. **NOTE:** (Roller blinds should not be dried in closed drying rooms, but should be dried outdoors.)

For tulle standard curtains, apply 100 ml of upholstery shampoo for 7 kg to the detergent section of your washing machine and take it for washing.

NO STAINS ON WOOL AND BAMBOO CARPET!

Powerfull stain remover, which is a refined product, is designed for you to apply without damaging carpets and upholstery thanks to its 7 pH balance and organic components. It is effective in heavy tea and coffee etc stains that occur on wool and bamboo type carpets. Powerfull is applied directly to the stained area, then the carpet is washed and the result is obtained (leave it on the stain for 15-60 minutes for decisively final result). It does not contain any product that adversely affects human health, it is completely organic. Thanks to the active ingredients in its content, it allows you to get results even on the most stubborn stains. It is suitable for use before washing or at the packaging stage. It is recommended to apply when the carpet is dry in order to directly interact with the stain. It does not spoil the carpet and does not leave traces on carpets.

HOW TO USE ?

Apply Powerfull Stain Remover directly to tea, coffee and food stains, especially on bamboo, wool and Nepalese carpets. Add hot water on it and wait for 15 or 60 minutes depending on the intensity of the stains and wash. Powerfull stain remover is a general purpose antibacterial professional stain remover used in professional carpet washing companies, auto care cleaning, home cleaning services. It does not contain heavy chemicals that may adversely affect human health. It breaks the resistance of stubborn small stain particles that are not visible to the eye, stuck to the carpet roots and floor, found on carpets, rugs, quilts, dresses and surfaces, eliminates stains and gives a clean appearance. Stain removal can be done without any problems by applying the powerfull stain remover to the stain dry, without the need to re-wet the stains that remain on the carpet after washing and do not come off after washing, which is frequently occurring in the carpet washing industry. In this case, when it is applied dry, it does not leave traces on the carpets.

EFFECTIVE SOLUTION FOR 100 DIFFERENT STAINS!

Thanks to its PH 14 balance and powerful formula, Forcefull Stain Remover is the most effective product for removing tea, coffee, oil paint, blood stains, heavy dirt and oil stains, food and beverages stains, especially on machine carpets and acrylic carpets. This is supportive stain remover that you can use in addition to the carpet washing shampoo. Forcefull stain remover is a professional stain product for general cleaning purposes, used in professional carpet washing companies, auto care cleaning, home cleaning services, and cleaning of kitchens and bathrooms. Thanks to the active ingredients it contains, it acts quickly on the toughest dirt and stains. It eliminates stains by breaking the resistance of stubborn small invisible stain particles found on carpets, rugs, quilts, dresses and surfaces that are stuck to the carpet roots and floor. Do not leave your work until after washing by using Forcefull Stain Remover before washing !

HOW TO USE ?

Put the Forcefull stain remover in a spray. Spray 3-5 sprays on dry or wet area. Allow the area to absorb Forcefull for 2/3 minutes. Scrub the softened stains with a hand brush or metal spoon to separate the stain particles from each other. Remove the foam from the floor. It can be used as a 1/100 supplement to carpet washing shampoo in automatic carpet washing machines by mixing it with washing usage water. In household and auto group upholstery washing machines, Forcefull can be put into the upholstery washing machine's reservoir in accordance with the dilution recommendation, either without shampoo or as a supplement to the upholstery washing shampoo, and it does not foam in the upholstery washing machine and does not damage the machine. It can be used on all types of upholstery.

CARPET DOES NOT TURN YELLOW WHEN DRYING IN DRYING ROOMS

It is a product that puts an end to the problem of yellowing carpet and the loss of time with the yellowing removal developed for the yellowing problem that occurs on carpets after washing. Apply the yellowing remover to the yellowing part of the carpets by spraying method, which will make your job easier, and you will see that the yellowing disappears by itself. After the application, the carpets do not need to be washed again.

CAUSES OF CARPET YELLOWING

- 1- Increase the rinse water,
- 2- Your carpet wringing machine may be insufficient, (increase your engine speed or wring time.)
- 3- Measure the PH value of your shampoo, (the pH value of carpet shampoo should be 7.) 7 ph above may cause yellowing.
- 4- Change the pool water frequently.
- 5- If you have applied stain remover or any chemical to the carpet after washing, make sure to wash the carpet and dispose of the chemical. (Chemical residue may cause yellowing.)
- 6- Do not hang carpets above the capacity of your dryer. (Otherwise, your machine will be insufficient to collect moisture, and it may cause yellowing as it cannot quickly evacuate the moisture in the environment.)
- 7- The floor of your room should not be concrete or ceramic, the floor, walls and ceiling should be covered with thermal insulation, and the floor should be laid with wood or laminate parquet. (Drying time may be prolonged because concrete or ceramic sweats, or the humidity of your room may increase and cause yellowing.) Carpets containing wool, Nepalese carpet, cotton or light tones may turn yellow if excessive moisture builds up in closed drying chambers and insufficient moisture removal or if they do not drain enough water during spinning. If your carpets turn yellow in the open area, have your water analyzed. If your water is normal, change the shampoo you have used.

The smell that makes you jealous carpet perfume: It prevents bad odors in the environment where it is applied. It makes you feel the difference with its pleasant and permanent natural essence. Fill the "The smell that makes you jealous carpet perfume" consisting of the composition of natural oils into a liter perfume bottle, spray it directly on your carpets, quilts, curtains and blankets that have been washed, dried 100% and come to the packaging stage, and bag it. Tie your bagged carpets, quilts, blankets and roller blinds tightly in an airtight manner, and trap the perfume.

TECHNICAL DETAILS

Since ethanol-based perfumes are volatile, they do not cause dampness and mold on carpets, armchairs, quilts, blankets and roller blinds.

- * In 20 Liter package
- * It is ethanol based.
- * Persistent fragrant for 15 days.
- * It does not leave stains, but also removes the yellowing of the yellowing carpets in the drying rooms.

Thanks to its specially developed formula, Aspirmax Multi-Purpose General Cleaner can be used on laundry, shirt collar and arm dirt, on all surfaces in your home, in the bathroom, kitchen, sink, counter tops, walls, carpets, seats, quilts and blankets, parquet and PVC, curtains and all upholstery.

INSTRUCTIONS FOR USE

Spray the product on the dirty surface of PVC, glass, bathtub, sink, toilet, shower and fixtures. Rub it with the help of a sponge. Then rinse the surface. In kitchen areas, stoves, and countertop cleaning, spray the product directly on the surface and wipe it. Then rinse the surface. Use by testing the color and fabric compatibility by making small trials in a suitable area for products such as colored fabrics, upholstery and carpets. For shirt, collar and arm dirt, spray the product directly on the dirty area. Then wash it in the machine.

Usage in Carpet Washing Machines

It can be used as a 1/100 supplement to carpet shampoo in carpet washing machines. Spray the dirty area on carpets, seats and upholstery, rub with a sponge. Then rinse the surface with a clean cloth. You can use it on wooden surfaces, glass cleaning by diluting it 1/5.

Usage in Washing Machines

It is suitable for washing white and colored clothes, tulle and curtains. 100 ml (1/2 cup) of Aspirmax with detergent is added to the detergent dispenser of your machines while taking water.

Features

It can be used as a 1/100 supplement to carpet shampoo in carpet washing machines. Spray the dirty area on carpets, seats and upholstery, rub with a sponge. Then rinse the surface with a clean cloth. You can use it on wooden surfaces, glass cleaning by diluting it 1/5.

It provides natural softness and the necessary care for your skin by fluffing the fibers in carpets, quilts, woolen, cotton blankets and towel type laundry. It makes ironing easier. It prevents quick contamination when used on tulle and curtains. Supersoft concentrated softener, enriched with refreshment capsules in its formula, provides lasting refreshment to your carpets, quilts, blankets and laundry every time you touch it with its persistent smell and soft texture. It is up to you to enjoy the vibrant colors of carpets, quilts, blankets and laundry washed with Supersoft concentrated softener. Thanks to the concentrated formula of Supersoft concentrated fabric softener with a lasting scent, your laundry gets better with every wash and preserves its vibrant colors, while nature is protected from negative effects! Using fabric softener not only makes your clothes smell nice, softens them and preserves their vibrant colors, but also makes ironing easier by reducing static electricity on the fabrics.

INSTRUCTIONS FOR USE

Add the fabric softener during rinsing, whether you are washing your clothes by hand or in the machine. If your washing machine has a softener eye, the softener you put here will be added automatically during rinsing. If your washing machine has a softener dispenser, the softener you put here will be added automatically during rinsing. If you want your laundry to retain their soft texture, use warm water instead of hot water when washing them. Rinse with cold water.

CAR CLEANING PRODUCTS

ProMax LAZER
Industrial Cleaning Products

Brushless Polishing Car Wash Shampoo is suitable for use in professional car wash companies. It provides excellent cleaning without the need for brushes. Thanks to its strong formula, it interacts quickly with dirt and mud in a short time, allowing the dirt to dissolve quickly. Contains concentrated polish and paint protection feature. Its concentrated structure of 1/60 has the power to clean the heaviest stain and stratified mud and dirt on the vehicle surface. It provides visible shine and precise cleaning on the vehicle surface after washing. It can be easily rinsed and does not leave residue. It has water repellent properties. It can be used safely in any vehicle. It does not leave any color or stain. It is a concentrated and economical product. The product, which is diluted and prepared for use, is applied to the vehicle to be cleaned by means of pressure spray tanks from bottom to top and in contact with all surfaces. The spray pump should be used between 5 and 6 bar. After the application, it is waited for 30-60 seconds, washed and rinsed with pressurized water from where you first started and up and down without leaving any chemical product on the surface. The water pressure during rinsing should be in the range of 130-180 bar.

INSTRUCTIONS FOR USE

Foam Adjustment: The product is foam-adjustable. Balanced adjustment can be made from the pressure and flow valves of your device to obtain dense or flowing foam. Usage with Brush: Add 100 ml of Polished Washing Foam to a bucket of water and you can wash with a brush or sponge.

Dilution Rates:

Car

- 1 liter per 60 liter pressure spray tank
- 1.50 liter per 90 liter pressure spray tank

Dilution rates for truck canvas washing:

- 1.5 liter per 60 liter pressure spray tank
- 2 liter per 90 liter pressure spray tank

Phosphorous Brushless Polished Car Wash Shampoo provides perfect cleaning without the need for brushes. Thanks to its strong formula, it interacts quickly with dirt and mud in a short time, allowing the dirt to dissolve quickly. Contains concentrated polish and paint protection feature. Its concentrated structure of 1/60 has the power to clean the heaviest stain and stratified mud and dirt on the vehicle surface. It provides visible shine and precise cleaning on the vehicle surface after washing. It can be easily rinsed and does not leave residue. Phosphorus and colorful auto foam will make car washing more fun and make you feel different. It has antistatic and water repellent properties. It can be used safely in any vehicle. It gives shine to your car's tires like the first day. Cleans, polishes and protects your tires in one step. It not only provides your tires with a new look, but also prolongs the period of contamination by preventing dust retention with its developed antistatic protective formula. It covers a glossy black film that protects against drying, cracking and sun exposure. It also gives a shiny appearance to plastic and rubber coatings.

INSTRUCTIONS FOR USE

It is more convenient to use the product on a dry tire after washing the car. Apply the product to the tire by pouring it on the sponge or spray the tire with the help of a spray and feed it to the tire with the help of a sponge. It can be used on all plastic surfaces in your car, including door interior and other plastic parts. Does not harm painted and plastic surfaces. Thanks to its special formula, it prevents tires from fading, protects against the sun thanks to its UV shield, prevents the formation of capillary cracks in tires. It is a product that is preferred by car enthusiasts for its beautiful appearance and has a superior performance. Protection, which lasts not days, but weeks, withstands even repeated washing and rain.

It removes bad odors in the environment where it is applied and provides a woody natural and pleasant smell. It provides a pleasant smell with its permanent natural forest and woody freshness. It is a natural Angel car and ambient perfume product. Fill the Angel car perfume into a 1 liter perfume bottle and spray 4-5 times directly into the air in your car or environment.

TECHNICAL DETAILS

Since ethanol-based perfumes are volatile, they do not cause wetness and mold in the environments and floors where they are sprayed. Angel is a woody perfume. It is used by spraying to upholstery or to the environment.
